

# 长三角G60科创走廊 [松江段]

G60 S&T Innovation Valley of Yangtze River Delta [Songjiang]

**松江**，致力于打造长三角G60科创走廊[松江段]，构建“一廊九区”总体布局。

一廊：G60科创走廊

九区：包括三大综合科创板块、六大专业创新板块

Songjiang is committed to building the G60 S&T Innovation Valley of Yangtze River Delta [Songjiang], and plans to form an overall layout of “One Valley and Nine Zones”.

One Valley: G60 S&T Innovation Valley of Yangtze River Delta

Nine Zones: including three comprehensive technological innovation zones and six specialized innovation zones

# 长三角G60科创走廊

G60 S&T INNOVATION VALLEY OF YANGTZE RIVER DELTA

勇当中国制造迈向中国创造先进走廊的**引领者**

打造科技和制度创新双轮驱动先试走廊的**策源地**

建设产城融合发展先行走廊的**标杆区**

**Becoming** the leader of advanced development corridor transferring from “Made in China” to “Created in China”

**Building** a cradle of pilot corridor driven by technological and institutional innovation

**Developing** a model area for novel corridor featuring integrated development of industries and cities

## 上海市松江区投资促进服务中心

# 长三角G60科创走廊

G60 S&T INNOVATION VALLEY OF YANGTZE RIVER DELTA

一廊：G60科创走廊。

一核：全球科创中心——上海，松江背靠上海科技创新资源优势，成为向东承接上海全球科创中心和先进制造功能，向西辐射江浙皖腹地的枢纽。

多城：包括松江、嘉兴、杭州、金华、苏州、湖州、宣城、芜湖、合肥等九城市，共同聚焦规划对接、战略协同、专题合作、市场统一、机制完善。

One Valley: G60 S&T Innovation Valley of Yangtze River Delta

One Core Zone: Shanghai, the global science and technology innovation center. Leveraging the superior technological innovation resources of Shanghai, Songjiang has become a hub of sci-tech innovation and advanced manufacturing in Shanghai, and a gateway to Jiangsu, Zhejiang and Anhui.

Multiple Cities: including Jiaxing, Hangzhou, Jinhua, Suzhou, Huzhou, Xuancheng, Wuhu and Hefei. Songjiang, together with the other eight cities, will focus on programme alignment, strategic coordination, thematic cooperation, market integration and mechanism improvement.

1

九科绿洲  
(临港松江科技城)

Jiuke Oasis  
(Lingang Songjiang Sci-tech Town)

区域总面积约26.6平方公里。未来将进一步发挥辐射带动作用，打造“科创之谷、人文之芯、生态之洲”，形成松江科创产业的发展动力源。

With a total area of about 26.6 square kilometers, the zone will further stimulate the economic development of neighboring areas, and promote technological innovation, cultural programs and ecological environment, fueling the technological innovation industry of Songjiang.

2

R&D Headquarters of Songjiang New Town

松江新城总部研发功能区

区域总面积约14.5平方公里。未来将加快引进高新产业和生产性服务业，进一步完善高端商务、总部研发、商业文化等功能，打造松江科创服务中心，激发地区活力。

Covering a total area of about 14.5 square kilometers, the zone will speed up the introduction of high-tech industries and productive service industries to further improve such functions as high-end business, headquarters and R&D, and commercial culture, building into a service center for technological innovation in Songjiang to liven up the region.

3

Songjiang Economic and Technological Development Zone (West)

松江经济技术开发区西区

区域总面积约24.1平方公里。未来将发挥后发优势，加快引进具有影响力的战略性新兴产业和龙头企业，完善产业配套，打造先进制造的集聚区、大型项目的承载区。

With a total area of about 24.1 square kilometers, the zone will exert its advantage as a late-comer to bring in influential strategic emerging industries and leading enterprises at a faster speed, and improve supporting facilities, thus bringing together advanced manufacturing enterprises and hosting large projects.

4

Entrepreneurship and Innovation Cluster of Songjiang University Town

松江大学城双创集聚区

区域总面积约10平方公里。未来将打造科创成果转化转移桥梁、创新创业主战场，进一步加强产学研一体化，营造包容创新氛围。

Covering a total area of about 10 square kilometers, the zone will serve as a bridge for the transformation and transfer of achievements in technological innovation and the main base for innovation and entrepreneurship, to further strengthen the industry-academic-research integration and create an inclusive environment for innovation.

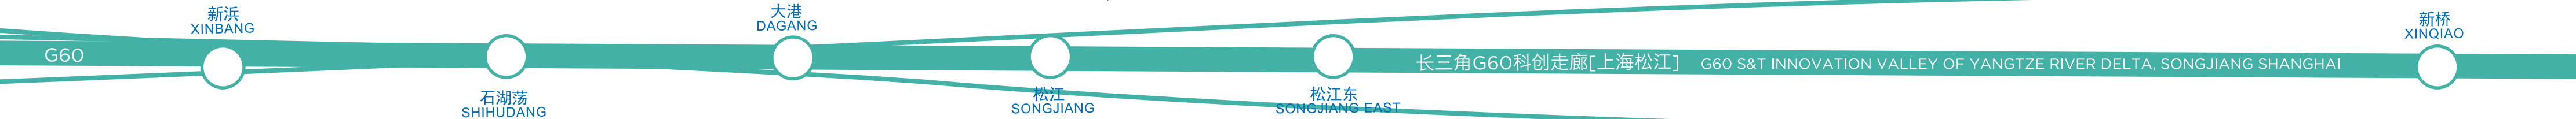

5

Dongjing Artificial Intelligence Industrial Base

洞泾人工智能产业基地

区域总面积约23.8平方公里。未来将加快引进一批智能产业和项目，形成智能产业集群，打造以人工智能研发生产为核心的智能制造基地，集智慧生产、智慧办公、智慧生活于一体的示范区。

Occupying a total area of about 23.8 square kilometers, the zone will accelerate the introduction of intelligent industries and projects to form clusters of intelligent industries and develop into an intelligent manufacturing base focusing on AI R&D and production and a demonstration area for smart production, smart office and smart life.

6

Songjiang Economic and Technological Development Zone (East)

松江经济技术开发区东区

区域总面积约35.7平方公里。未来将依托现有产业基础，打造长三角的先进制造业高地，循序渐进推进存量工业用地转型升级，开展“针灸式更新”，利用零星用地，构建企业社区，完善园区功能。

With a total area of about 35.7 square kilometers, the zone will, based on the existing industrial foundation, build into a leader in advanced manufacturing in the Yangtze River Delta, and transform and upgrade scattered idle industrial lands step by step to build business communities on them, thus improving its functions.

7

Songjiang Comprehensive Bonded Zone

松江综合保税区

区域总面积约4.15平方公里。未来将打造新一代电子信息研发生产营销中心、新一代货物服务贸易展览展示中心、国际采购分销配送中心。

With a total area of about 4.15 square kilometers, the zone will build a new-generation electronic information R&D, production and marketing center, a new-generation goods and services trade exhibition center and an international procurement, distribution and delivery center.

8

Songjiang Intelligent Logistics Zone

松江智慧物流功能区

区域总面积约13.7平方公里。未来将进一步迁出现状低端产业，打造G60科创走廊智慧物流中心、沪西南电商服务中心。

With a total area of about 13.7 square kilometers, the zone will replace low-end industries with the smart logistics center of the G60 Science & Technology Innovation Valley and the e-commerce service center in southwest Shanghai.

9

Shanghai Hi-tech Films and Televisions City

上海科技影都

区域总面积约12.7平方公里。未来将加快吸引具有全球影响力的影视产业和企业入驻，打造全球知名的科技影视产业集聚区、面向长三角的创意商务集聚区、上海全球城市的特色功能区；依托松江南站枢纽，配套多元复合功能，形成地区级公共中心。

With a total area of about 12.7 square kilometers, the zone will attract film & TV industry and companies with global influence more quickly to build a world-known high-tech film & TV industrial cluster, a creative business cluster in the Yangtze River Delta, and a special functional area for the development of Shanghai into a global city. Based on the transportation hub of Shanghai South Railway Station, it will be equipped with a variety of functions and build district-level public centers.
