& HIGH-LEVEL MEETING ON GLOBAL AI GOVERNANCE

WAIC 2024
世界人工智能大会
(SHANGHAI WORLD AI CONFERENCE)

About WAIC

In today's data-driven and intelligence-powered era, AI represents not only a technological leap but also a key force driving profound social change. Since its inception, the World Artificial Intelligence Conference (WAIC) has always been committed to exploring the boundaries of future technology and promoting innovation and progress in the field of global AI.

Over the past seven years, the conference has witnessed more than 6,550 international top scientists, experts and scholars, entrepreneurs, investors, government officials and other leaders from all walks of life gather together to stimulate wisdom and insight into the core. Through a series of high-end forums, exhibitions, awards and competitions, application experience, and investment incubation, WAIC has provided an excellent platform for global AI professionals to share the latest scientific research results, exchange industry experience, and explore cooperation opportunities.

Looking ahead, WAIC aims to expand its influence and platform value beyond an annual event by offering diverse and enriched brand activities. We will provide cutting-edge information on a regular basis, strengthen VC incubation and industrial docking, focus on promoting AI inclusive education, play a more active role in global scientific and technological innovation, industrial progress and social responsibility, establishing WAIC as a key engine for comprehensive development in the field of artificial intelligence.

Exhibition

Global AI enterprises gather together to focus on innovation frontiers and industrial acceleration, and share with the industry the infinite ideas brought by the charm of AI technology.

Core Technology: Focusing on the R&D and industrial development of core AI technologies across the value chain.

AI GC, large models, AI chips, computing infrastructure (including servers), AI data, cloud services, brain-inspired intelligence, 5G communications, blockchain technology, machine vision, secure computing, embodied intelligence, and AI agents.

Smart Terminals & Industry Applications: Driving industry development and accelerating transformation.

Intelligent robots, smart vehicles, smart homes, drones, edge intelligence devices, AR/VR equipment, digital health and smart healthcare, green and low-carbon solutions, commercial retail, fintech, public services, industrial IoT and smart manufacturing, smart transportation, intelligent education, and AI for Science.

Focusing on Ecosystem Development: Advancing AI responsibly in the digital wave.

Talent Cultivation, Investment and Financing Support, Security Governance, Tools and Platform Building and ESG.

New Consumer-Focused Experience Hall: Bringing AI technology into daily life.

A dedicated consumer experience area showcasing AI PCs, AI-powered smartphones, wearable devices, art and entertainment, and metaverse applications, making AI technology more accessible and enhancing the convenience and joy of everyday life.

On-site Activities

Innovation Incubation

Gathering 200+ AI startups, Future Tech 2025 is geared to introduce global innovation projects and create a model community for innovation projects and investors.

On-site Matching

Government leaders, executives from centralized state-owned enterprises, listed companies, foreign enterprises, associations, and organizations will visit the booth to exchange ideas and promote investment and cooperation.

1V1 Meet Up

set up an on-site communication area to provide an in-depth communication area for the intended audience;

Overseas Delegations

Gathering 50+ overseas groups, covering international organizations, enterprises, chambers of commerce, capital and incubator delegations to visit on-site;

Competition and Awards

Prestigious Awards Leading the Trend

- Shanghai Artificial Intelligence Laboratory
- China Southern Power Grid
- Moqi Technology (Beijing) Co.,Ltd. Moqi AI Database
- Schneider Electric (China) Co, Ltd.
- Luzhi Tsinghua University

- The DeepLink Artificial Intelligence Open Computing System
- Smart Simulator "Yudian" for New Power System Moqi AI Database
- EcoStruxure AI Module for Energy Management and Industry Automation
- Virtual-scanning light-field microscopy for robust snapshot high-resolution volumetric imaging

Super AI Leader

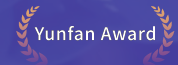

Award Top award leads the industry

The SAIL Award, the summit accolade of the conference, spotlights worldwide advancements in AI, honoring trailblazing projects that push boundaries in technology or application—shaping tomorrow's world today.

The Young Outstanding Paper Award encourages innovative research

By global talent 159 papers from more than 50 countries are up for consideration

Yunfan Award selects the most promising young technical talents

Coverage of the United States, Canada, United Kingdom, Australia, Saudi Arabia, China and Hong Kong

The honor roll is unveiled! As the highest accolade for exhibition displays, this award recognizes innovative exhibits with outstanding contributions and leading technologies in the industry. This year, the award has been comprehensively upgraded with four key enhancements:

1. Precise Positioning: Focused recognition of groundbreaking innovations.
2. Optimized Mechanisms: Streamlined and fair selection processes.
3. Diverse Awards: Expanded categories to celebrate a broader range of achievements.
4. Comprehensive Promotion: Enhanced visibility and publicity for award-winning exhibits.

million overseas exposure

Mainstream Media Covering Authoritative Perspectives

- CCTV main window broadcast 50 reports.
- People's Daily, Jiefang Daily, Wen Wei Po, Xinmin Evening News front-page features.
- Reuters, France 24, South China Morning Post, Nikkei Asia and other overseas media reported on the conference.

New Media Self-Media Circle Breaking Barriers to Spread the AI Wave

- 9+4 platforms core position output information.
- KOLs, Internet celebrity, and Foreigners Visiting the Pavilion.
- Internet celebrities visiting Shanghai symposium.
- AI creators share their work "WAIC Wonderful World" in high quality.

Industry media In-depth storytelling in niche areas

- Nearly 50 head industry media.
- "36Kr", "Geek Park", "Huxiu", "Synced", "NewGeek", "Jazz Year" and so on.
- Published more than 150 in-depth analysis articles.

Special Features: Creating a Live Streaming Feast

- 3*24-hour "Continuous Broadcast" to generate new perspectives, new strengths, and new ideas.
- AI Magic Box for AI integration, with over 40 companies and more than 30 sharing sessions.
- Media Livestreaming Room featuring platforms such as CCTV, The Paper, Caixin, and 36Kr.

Why Choose WAIC

Industry Leaders

Public speaking opportunities, Frontier trend release roadshows

Trend Observation

Exclusive member services, Opportunities to participate in official events throughout the year, Subscription to electronic publications

Networking

Thank-you dinner, Networking cocktail events

Business Opportunities

Closed-door technical exchange meetings, Project procurement matchmaking, Audience data matching, Centralized application scenario releases, Innovation incubation project roadshows with investor access, Business expansion, Talent exchange and recruitment

Brand Promotion

New product release roadshows, Official brand columns such as WAIC-AI Magic Box live interviews, 3*24-hour live interviews, Professional audience group visits, Exclusive media interviews, Special feature articles in *WAIC UP!* online publication
