# Five Centuries

Since ancient times, Shanghai's land and water have been known as important strategic locations and the "throat" of the Suzhou River. In modern times, the opening of Wu Song

Port twice laid the foundation for Baoshan's great achievements in industrial, municipal, educational, and military development for the past century.

你介绍心花已盛开……  
迎八方朋友来，不用喊芝麻门儿  
江，碧波连通四海，欢迎  
已打开。东方有亲大  
珍异彩，欢迎远方的朋  
友来，不用喊芝麻门儿  
东方有亲宝山，蕴藏奇

图肃《宝山之歌》

## Century-old Lighthouse Baoshan

In the tenth year of the Ming Dynasty's Yongle era (1412), Emperor Chengzu personally composed the "Baoshan Beacon Tower Stele," which concludes with the phrase "the name of Baoshan will last for eternity, and the inscribed stone will endure as long as the universe." This is when Baoshan officially received its name.

### A Hundred Years of Opening Up

1898  
Establishment of the Wu Song Port Construction Office

1921  
Establishment of the Wu Song Commercial Port Office, which formulated the "Wu Song Opening Plan"

### A Hundred Years of Municipal Development

1876  
The "Wu Song Railway" from Shanghai North Station to Wu Song Town was fully opened.

1897  
The original Wu Song Railway was renamed as the "Songhu Railway" "Wu Song Opening Plan"

### A Hundred Years of Military

1932  
The "Miaohang Victory" in the First Battle of Songhu Resistance War

1937  
In the Second Battle of Songhu Resistance War, the main forces of the three groups of Chinese troops fought in Baoshan.

### A Hundred Years of Industry

- China's first industrial gas plant
- China's first industrialized sugar refinery
- Baosteel, China's first large-scale steel enterprise
- Wu Song Machinery Factory, China's first locomotive repair factory
- China's first textile machinery manufacturing factory, the China Iron Works

### A Hundred Years of Education

- Started in 1905
- Fudan Public School
- China Public School
- Tongji University
- Fisheries School
- Wu Song Merchant Marine College

# THE TIDE RISES FROM THE THREE RIVERS

**300.6**  
square kilometers

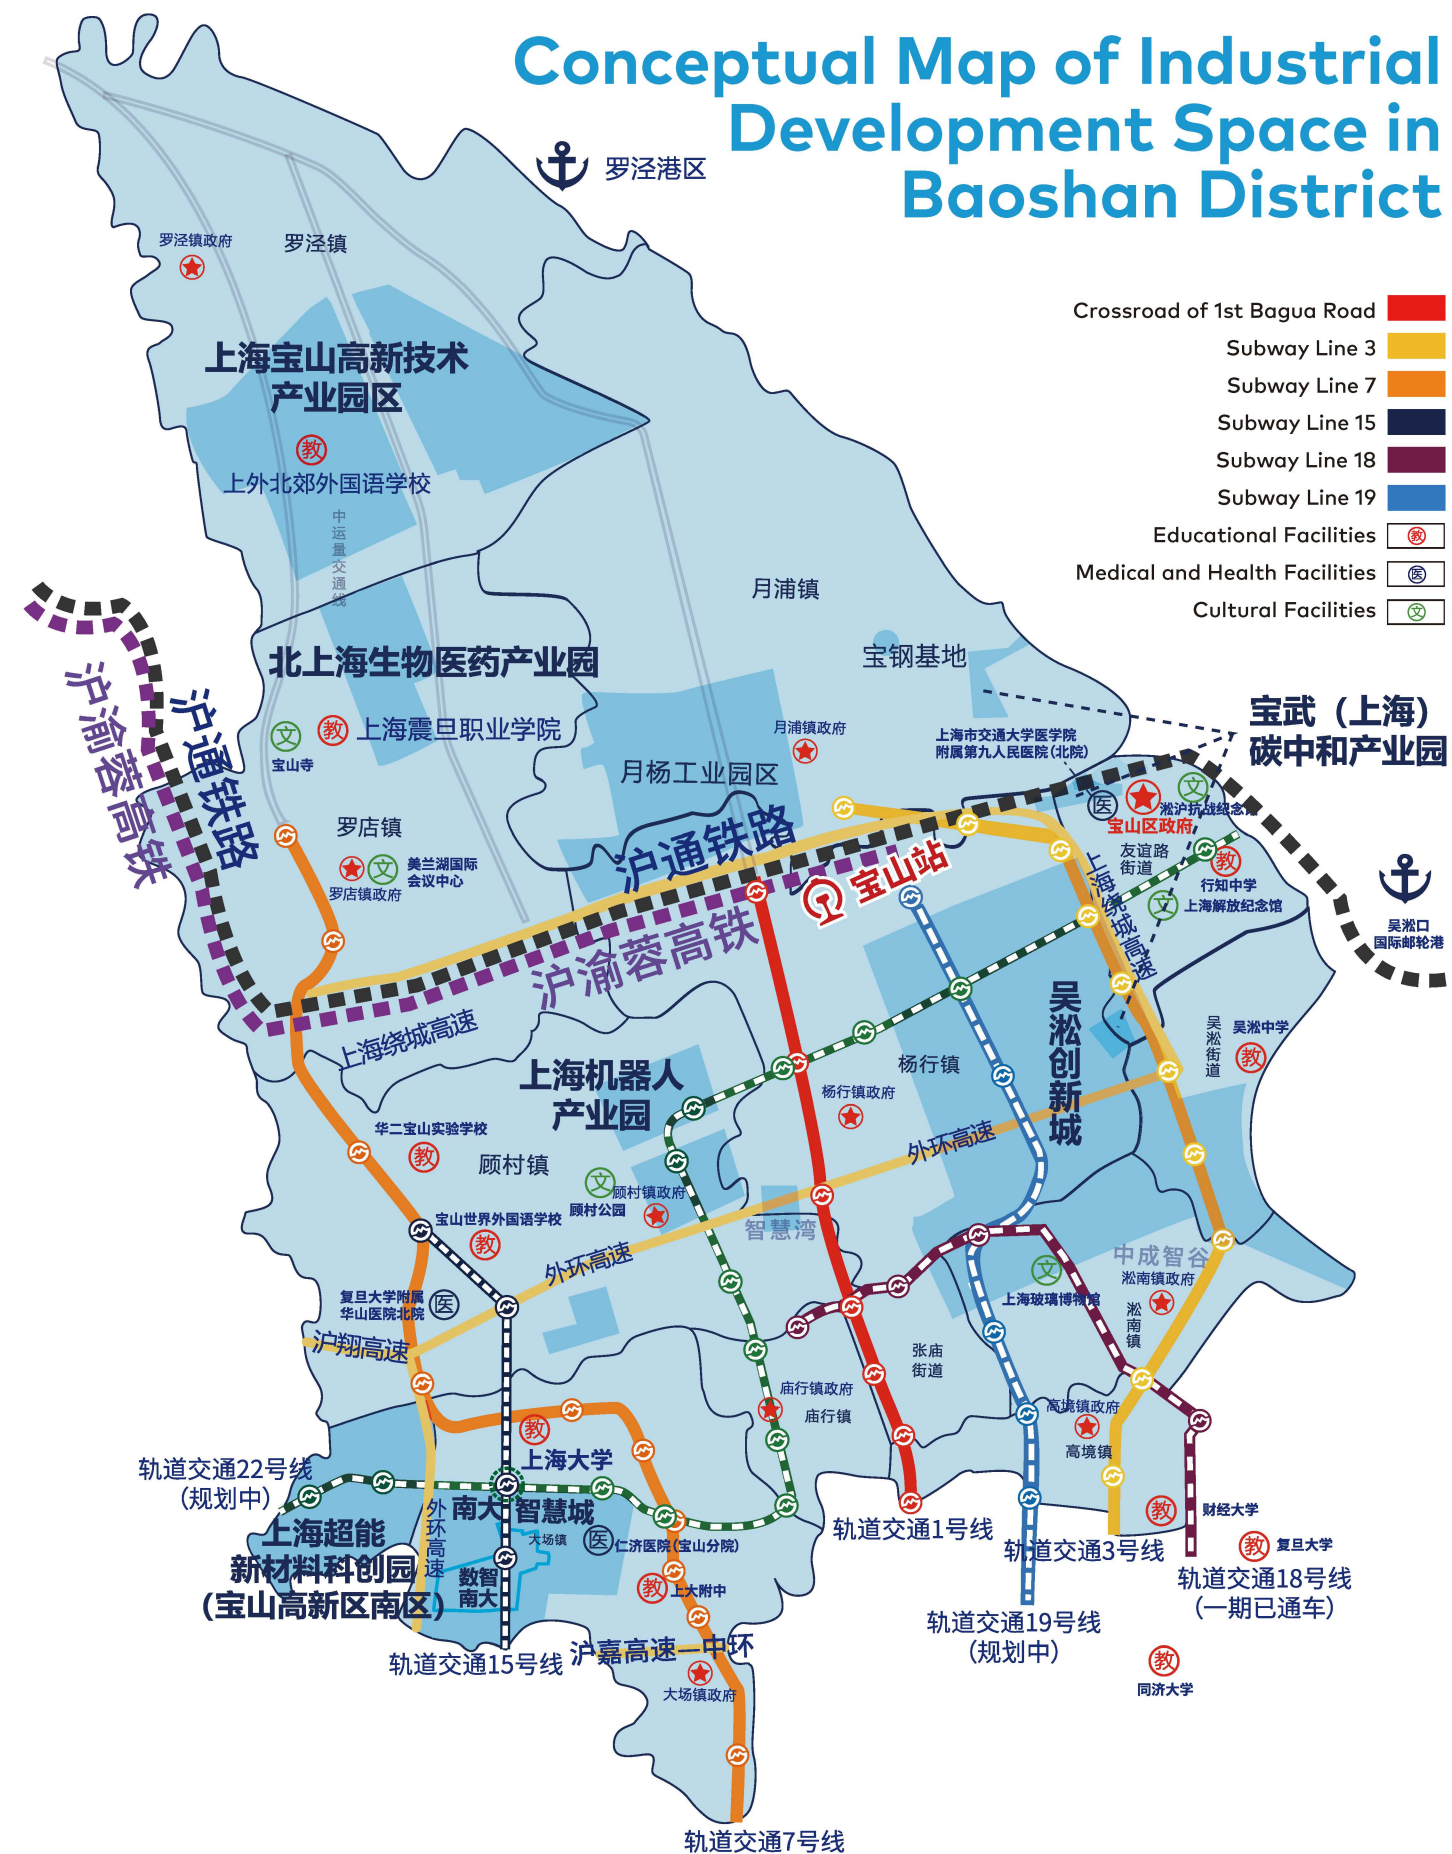

Population  
**2.25 million**  
permanent residents

Baoshan District is located at the confluence of the Yangtze River, Huangpu River, and Wusong River, with access to the sea. It is known as the "water gateway" of Shanghai and is the urban area closest to the city center. Baoshan District will build the main base of Shanghai's science and technology innovation center, create a modern, innovative, and ecological international metropolis, and become a model area for green and low-carbon transformation in the city, as well as an important node for Shanghai's service radiation to the north wing of the Yangtze River Delta and the new growth pole of the North Shanghai economy.

# SCIENCE & INNOVATION

## BUILD THE MAIN BASE OF SHANGHAI SCIENCE AND TECHNOLOGY INNOVATION CENTER

According to the overall requirements of "global transformation, integration of industry and city, intensification of innovation, and green low-carbon", Baoshan District is fully committed to building Shanghai's scientific and technological innovation center with active innovation entities, prominent innovation talents, outstanding innovation functions, and excellent innovation ecology. Relying on Nanjing University, we will accelerate the transformation of innovation achievements into advanced productive forces. With the help of Baowu Steel Group, we will strengthen cooperation and start with two pilot areas of 1 square kilometer each, creating a "model room" for coordinated transformation between the central and local governments and forming a demonstration effect. Based on local universities such as Fudan, Jiaotong, and Tongji, we will open our arms to universities nationwide and even globally, creating university science and technology parks or innovation industrial parks, and forming a vigorous trend of regional innovation.

### Key Carrier

#### Shanghai Graphene Industry Technology Functional Platform

**Building Area:** 15,000 square meters  
**Transportation:** Line 7, Line 11, Line 15  
**Functional Positioning:** Graphene application technology innovation, pilot-scale and industrialization

📍 No.1919 Fengxiang Road ☎ 021-56131713

#### Shenhe Headquarters Base

**Building Area:** 80,000 square meters  
**Transportation:** Line 7, Line 11, Line 15  
**Functional Positioning:** New materials, headquarters economy

📍 No.188 Shanlian Road ☎ 13816898420

## Baowu (Shanghai) Carbon-Neutral Industrial Park

Shanghai Baowu Ecological Industrial Park is a characteristic industrial park that leverages the core "dual carbon" technology industry and related extended industry clusters of Baowu Ecological Circle. Following the development concept of "factory area, park area, and urban area", based on the existing industrial resources of Baowu, the park aims to create an experimental field for industrial transformation and upgrading, as well as a demonstration park for carbon neutrality industry, making it the preferred destination for innovative development of green and low-carbon related industries in Shanghai.

2.14 square kilometers  
total area of the park

650,000 square kilometers  
total area of the park

## Digital Intelligence Nanda

It is a characteristic industrial park in Shanghai, relying on the construction of the Nanda Digital Twin City Construction, focusing on emerging industries such as "smart energy and smart driving" and centered on "software services, chip design, and artificial intelligence". It fully strives to create a forward-looking and distinctive industrial cluster, and become a leading area for the city's digital industry and a demonstration area for the digital city.

**1.10** square kilometers  
total area of the park

**542** mu of land available  
for industrial use

**1,320,000** square meters  
of rentable and saleable  
property area

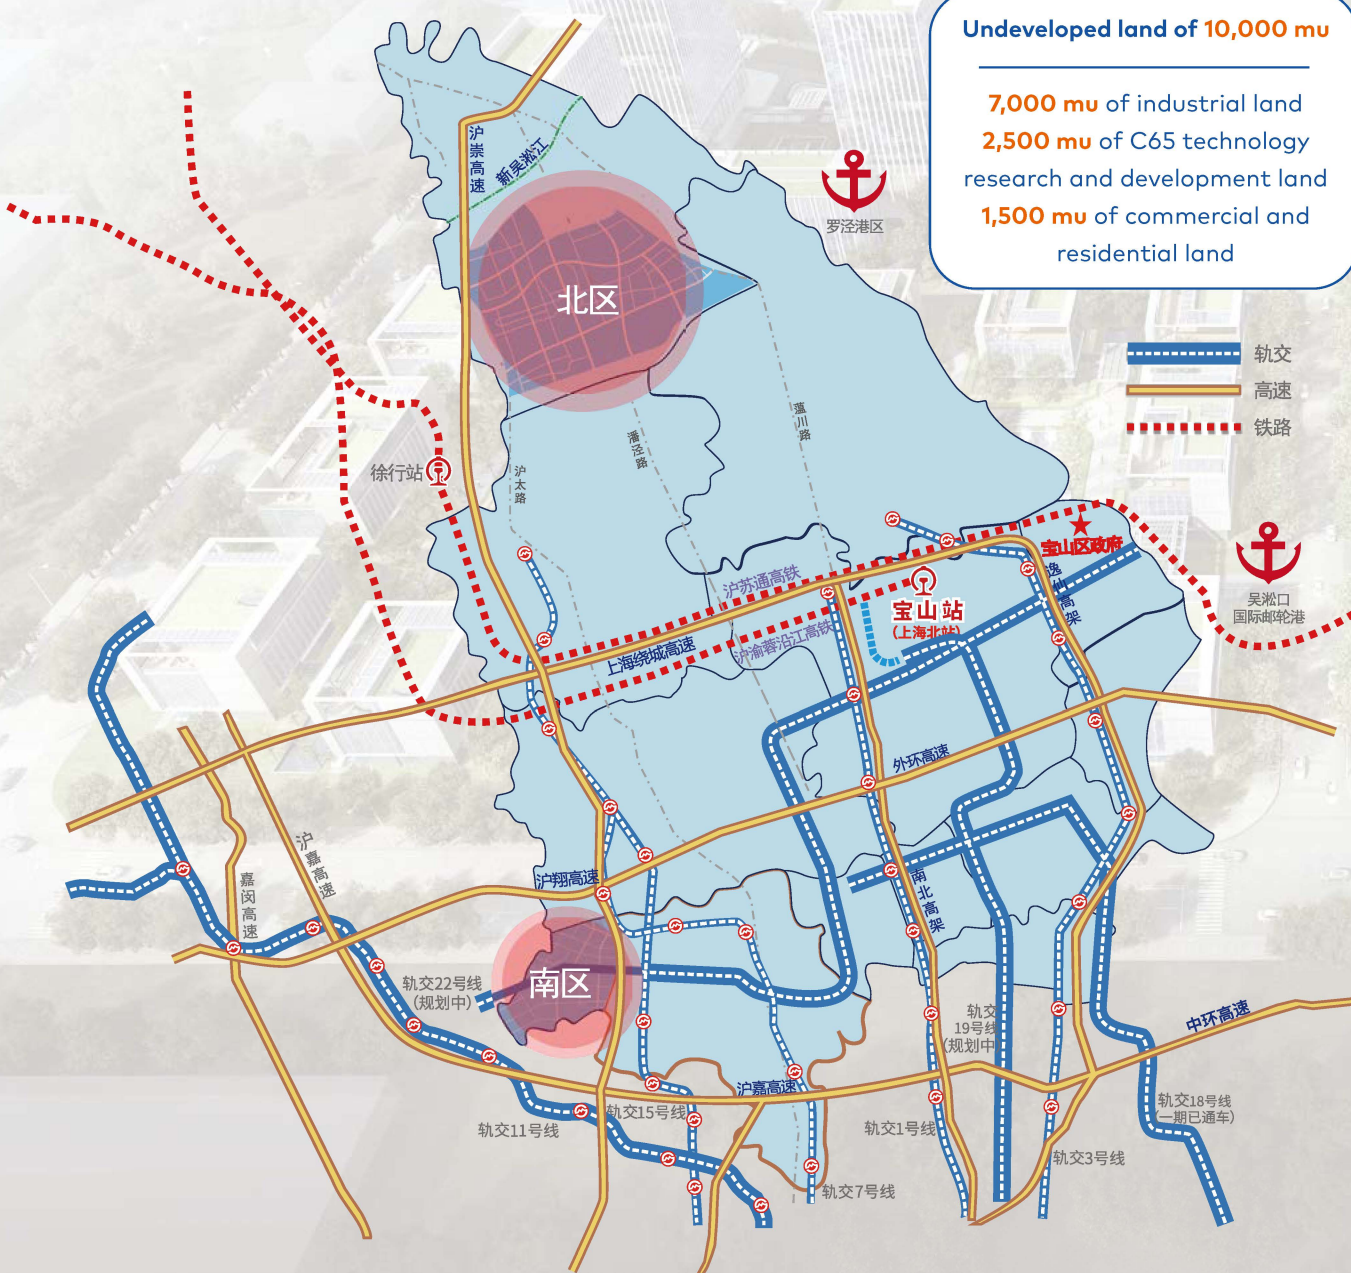

# Shanghai Baoshan High-tech Industrial Park

Undeveloped land of 10,000 mu

7,000 mu of industrial land  
2,500 mu of C65 technology research and development land  
1,500 mu of commercial and residential land

轨交  
高速  
铁路

Build it into a carrier of national strategic emerging industries and an industrial base representing advanced manufacturing industries at a high level.

Three major industries:  
New materials, biomedicine, and intelligent manufacturing.

27 square kilometers:

6 square kilometers in the south area  
21 square kilometers in the north area

353 regulated enterprises

Science Technology Innovation + Industry

344 high-tech enterprises  
65 specialized and innovative enterprises  
23 technology-based SMEs  
8 academicians workstations (academicians expert service centers)  
7 listed companies  
3 regional headquarters of multinational companies  
4 foreign-funded R&D centers

## Key Carrier

### North Suburban Future Industry Park

**Building Area:** 360,000 square meters (244,000 square meters above ground, 116,000 square meters underground)  
**Transportation:** Line 1, Line 7  
**Functional Positioning:** biomedicine, new materials, intelligent manufacturing, headquarters economy

## Optimizing the Business Environment in 2023

- Establish a system of 50 "Joint Chief Agents" service.
- Implement a themed package-style integrated approval service for "starting one thing".
- Promote public employment services with "digital empowerment" through a three-tier network.
- Offer 10 VIP talent exclusive services.
- Launch a "low-efficiency activation action plan" for 100 parcels of land.
- Optimize and add 10 "apply-free services".
- "Streamline certifications and facilitate people's livelihood" to improve the legal and business environment.
- Realize "residence information registration and worry-free fast registration for enterprises".
